Stocks and Bonds,

By Telegraph to The Times.

New York, May 1.—Government bonds quiet and strong for 3s, which show a gain of ½ in price bid, while 4s lare ½ lower. There has been a continuation to-day of the duliness which has been such a prominent feature of the stock market for some time past. The market was steady at opening and continued strong throughout the day, till late in the stiernoon, when a combined attack was made upon the whole list, which resulted in depressing prices for fractional amounts only. The attack was not withdrawn until the close of the Board, and final prices are the lowest, or within ½ to ½ per cent, of the lowest, or within ½ to ½ per cent, of the lowest of the day for nearly everything on the list. There was not a single active stock on the list whose extreme fluctuations exceeded 1 per cent. Gould stocks were among the strongest in the forenoon and resisted the afternoon attack most successfully. Missour Pacific is down ¼ and Union Pacific ¾ per cent. A careful analysis of President Adams's annual report shows that the Union Pacific Railway owns the enormous sum of \$90,104,910 of bonds and land notes of idheir own road and bonds and stocks of branch or tributary lines. This is the largest amount of similar assets held by any railroad corporation in the United States, and the company derives large revenue from the same. The following is a recapitulation. The fuel of the future for Southern California is undoubtedly the coal oil found so abundantly in Los Angeles county, and the means of using it the EDWARDS OIL BURNER, a neat, simple invention, easily applied to any ordinary cooking stove orrange, or heater. Also with kettles, cauldrons, ovens, evaporators, incubators, etc. The oil for this Burner is furnished at 12 he per gallon, equal to four cents or less per hour when in use. No wicks, no dust, no smoke, no soot, no eder, no ashes.

ECONOMY. CLEANLINESS. CONVENIENCE. Two Hundred Now in Use.

What a few well known citizens (among many who testify to its merits) say about it What a few well known citizens (among many who testify to its merits) say about it:

From the KIMBALL MANSION (Mr. A. Hart,
proprietor), one of the largest and leading
boarding houses of Los Angeles:

"The Oil Burner you put in my range gives
periect satisfaction. It can be run at just
hait the cost of either wood or co.al. The coal
was costing me one dollar per day, and the
oil is costing only fifty cents. It will produce
a strongen heat than wood or coal, and the
heat can be kept constantly at any point desired. The cook says for pastry cooking it
excels anything she ever used."
